Clinical Procedures for Long-Term Care was developed as a guide for long-term care facilities. To the best of our knowledge, this manual reflects current regulations and practices at the time of publication. However, it cannot be considered absolute and universal. The information in this manual must be considered in light of your facility.

The author and publisher put forth every effort to ensure that the content, including any policies, recommendations and sample documents used in this text, were in agreement with current regulations, recommendations and practices at the time this manual was published.

As changes or undetected errors occur, they will be incorporated into the next printing. Visit www.BriggsCorp.com to view any product corrections.

The author and publisher disclaim responsibility for any adverse effects resulting directly or indirectly from the use of this policy manual, from any undetected errors and from the user’s misunderstanding of the text.
ABOUT THE AUTHOR

Delores Galias, RN, RHIT has over 40 years experience in nursing in the areas of Intensive/Coronary Care and Administration. She has held positions as Director of Nursing Services in both acute and long-term care.

Mrs. Galias has six publications in print for long-term care. In addition to this Clinical Procedures, she has authored Job Descriptions for Long-Term, Quality Assessment and Assurance, Medical Record Audit, Resident’s Orientation to Discharge and the MDS Process: Playing by PPS Rules video series.

She has been an instructor at Pasadena College in Administration and Nursing Management in long-term care facilities. She is a Nurse and a Registered Health Information Technician (RHIT) and has been active in numerous nursing and medical record professional associations.

Since 1980, Mrs. Galias has provided consultation services to many long-term care facilities in the areas of medical records, utilization review, regulatory compliance, reimbursement and nursing.

CONTRIBUTOR

Mary Madison, RN, RAC-CT, CDP has over 40 years of experience in acute and post-acute long-term care. She has held positions of charge nurse and Director of Nursing. Mary has also worked for Telligen (Iowa QIO) and for the most recent 16 years as Manager of the LTC Clinical Software Support. She has taught numerous classes on the MDS 3.0 throughout the United States the past 4 years as well as many other nursing topics including resident rights, dependent adult abuse, falls, nutrition and hydration, bloodborne pathogens, Alzheimer’s Disease, etc. Mary joined Briggs Healthcare® in 2014 as the Clinical Consultant for Long-Term Care and Senior Care including Assisted Living.

TABLE OF CONTENTS

INTRODUCTION

CLINICAL PROCEDURES

OVERVIEW

RESIDENT RIGHTS GUIDELINES

INFECTION CONTROL GUIDELINES

PROCEDURES

Abdominal Binder, Application of
Abdominal Binder, Scultetus
Ace Bandage, Application of
Admission of Resident
AMA Release
Ambulation
Ambulation, Hemiplegic Resident
Antiembolytic Stockings (Elastic Stocking/TED Hose)
Apical Pulse
Arm and Foot Soaks
Arm Sling, Generic Instruction for
Artificial Eye (Prosthesis), Routine Care of
Back Rub
Bath, Bed
Bath, Medicated
Bath, Partial
Bath, Shower
Bath, Sitz
Bath, Sitz (Disposable)
Bath, Tub
Bedmaking, Occupied
Bedmaking, Unoccupied
Bedpan/Urinal, Administration of
Bladder Irrigation and Instillation
Bladder Management (Retraining) Program
Blood Pressure Measurement
Blood Sugar Monitoring
Bowel Management (Retraining) Program
Call Light, Use of
Cardiopulmonary Resuscitation (CPR)
Cast Care
Catheter Care, Indwelling Catheter
Catheter Insertion and Removal, Female
Catheter Insertion and Removal, Male
Catheter (Indwelling), Insertion and Removal of (Female and Male)
Choking (Obstructed Airway Clearance)
Clostridium Difficile, Prevention and Management
Colostomy Care
Colostomy Irrigation
Commode Chair, Use and Care of
Compress, Clean – Cold (General Guidelines)
Compress, Clean – Warm (General Guidelines)
Compress, Sterile - Cold (General Guidelines)
Compress, Sterile – Warm (General Guidelines)
Condition Change of the Resident
Condom Catheter, Use of External
Death of Resident
Dentures, Care of
Discharge/Transfer of the Resident
Douche, Vaginal
Dressing Change, Clean
Dressing Change, Sterile
Dressing the Resident
Ear Drops, Instillation of
Ear Irrigation
